NAJM AL-DAIN FAISAL YAHYA AL-HOKABI

Nationality: Yemeni | **Phone number:** (+90) 5310837190 (Mobile) | **Email address:** n.faisal12025@gmail.com | **LinkedIn:** Najm AL-HOKABI |

Address: Afyonkarahisar, Türkiye (Home)

ABOUT ME

I am a fourth-year Mechatronics Engineering student at Afyon Kocatepe University in Turkey with a strong interest in robotics, drones, and intelligent systems. I have experience in programming with C and Python, mechanical design using Solid Edge and AutoCAD, and working on engineering projects. I am passionate about developing innovative robotic systems and continuously improving my technical skills.

EDUCATION AND TRAINING

03/10/2022 – CURRENT Afyonkarahisar, Türkiye

BACHELOR OF MECHATRONICS ENGINEERING Afyon Kocatepe University (AKÜ)

WORK EXPERIENCE

ENGINEERING INTERN (STAJYER) – KUDÜS OTOMASYON – 23/06/2025 – 06/09/2025 – ISTANBUL, TÜRKIYE

Programmed and configured Siemens S7-1200 PLCs for industrial automation systems, integrating control panels into real-world applications.
Executed installation, testing, and maintenance of automated systems, working directly with sensors, actuators, and industrial equipment.
Troubleshot and resolved electrical and control system malfunctions, ensuring system reliability.

PROJECTS

12/10/2024 – 16/01/2025

Smart Firefighting Vehicle

- Developed an autonomous firefighting system using Arduino and sensors.
- Implemented automatic fire detection and extinguishing mechanisms.

Watch Project Video

01/03/2025 – 01/06/2025

Robotic Arm (Manual & Automatic Modes)

- Designed and built a robotic arm controlled using a potentiometer.
- Implemented both manual and automatic operation modes.

Watch Project Video

11/12/2025 – CURRENT

Hybrid VTOL Drone Project

- **Collaborating** within the electronics department to design and integrate avionics and electronic systems for a competition-grade Hybrid VTOL drone.

View Team Post on LinkedIn

04/01/2026 – 02/02/2026

Wi-Fi Controlled Camera System (ESP32-CAM)

- Developed a wireless video streaming system using ESP32-CAM.
- Enabled real-time monitoring via mobile interface.

Watch Project Demo

15/02/2026 – CURRENT

Graduation Project – Vision-Based Target Tracking Pan-Tilt System (Ongoing)

Designing a 2-axis pan-tilt mechanism for real-time target tracking and laser guidance.
Implementing computer vision algorithms via Raspberry Pi for accurate color detection and image processing.

View Prototype Design
View Prototype Design

01/02/2026 – CURRENT

Teknofest Project – Air Defense & Target Tracking System (Çelik Kubbe) (Ongoing)

- Participating as a team member in the **Teknofest** competition (Çelik Kubbe category), developing an air defense system according to the competition requirements and phases, including system design, sensor and embedded systems integration, and testing in a competitive engineering environment.

SKILLS

Problem Solving | Computer Vision (YOLO) | Teamwork | Critical Thinking | C/Python Programming | MATLAB / Simulink | Time management

LANGUAGE SKILLS

Mother tongue(s): **ARABIC**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B1	B1	B1
TURKISH	C1	C1	C1	C1	C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

VOLUNTEERING

10/10/2023 – 11/09/2025 Afyonkarahisar, Turkey

General Secretary and Public Relations Officer

- Managed official documentation and organized large-scale student cultural events, serving as the primary liaison for the student community.

07/02/2025 – 12/09/2025 Afyonkarahisar, Turkey

Founding Member and Campaign Coordinator

- Co-founded the student club, coordinating election campaigns and intellectual forums to promote academic dialogue.
